

PT MARGA BARA JAYA

World-Class Infrastructure with EV Capabilities

MEMBER OF GEO ENERGY GROUP

THE KEY TO UNLOCKING SOUTH SUMATRA'S RESOURCE POTENTIAL

PT Marga Bara Jaya (MBJ) Integrated Infrastructure, a 92km hauling road and associated jetty in South Sumatra and Jambi, Indonesia, serves as the vital link connecting PT Triaryani (TRA) and neighboring mines to both domestic and international markets.

Overview of MBJ

Who We Are:

MBJ is a premier infrastructure provider developing a 92km hauling road and associated jetty in South Sumatra and Jambi, Indonesia. Our mission is to revolutionize coal and resource logistics in the region, ensuring efficient and cost-effective transportation.

Strategic Importance:

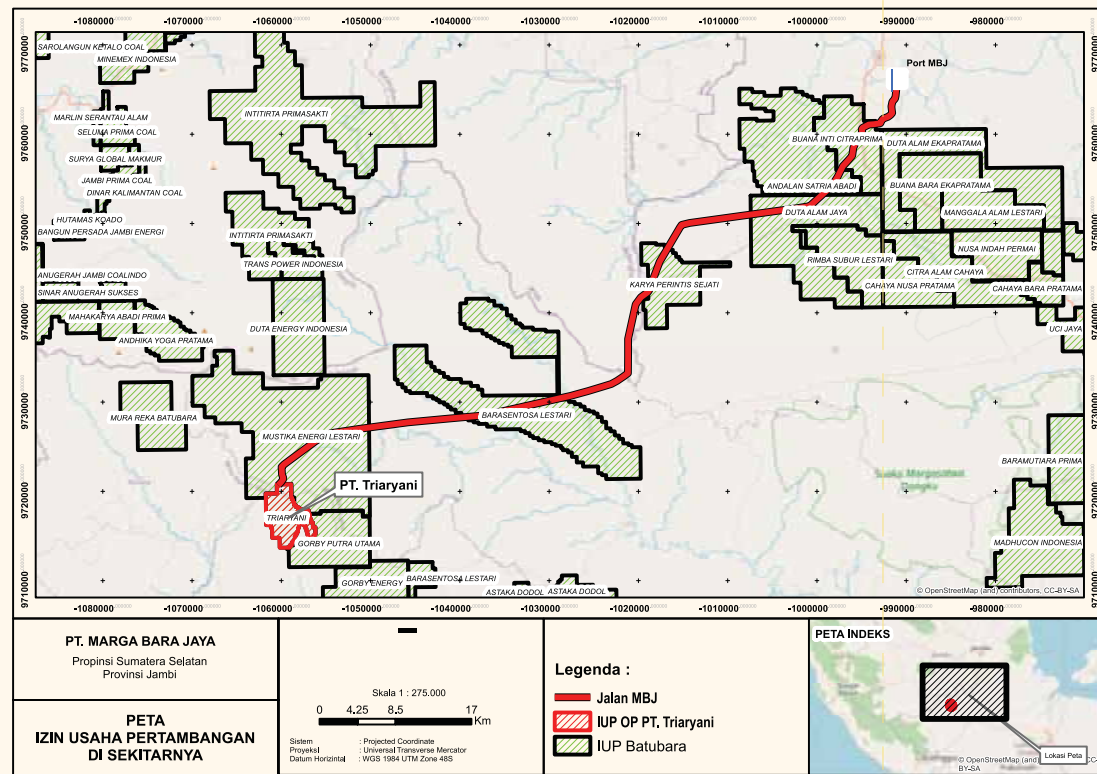

Positioned in a resource-rich region, MBJ serves as the vital link connecting PT Triaryani (TRA) and neighboring mines to both domestic and international markets. By optimizing logistical operations, MBJ enables seamless movement of coal, timber, and other natural resources, bolstering regional economic activity and trade competitiveness.

Collaborating with Industry Leaders:

MBJ is developed in partnership with world-class infrastructure specialists, including CCCC First Harbor Consultants and Norinco International, ensuring superior engineering and construction standards. Additionally, financial backing from SINOSURE provides a strong foundation for the project's long-term success, reinforcing investor confidence and sustainability in the region.

Project Timeline:

Construction began in August 2024, with targeted completion in the first half of 2026. Upon completion, MBJ will stand as a critical infrastructure hub, offering a sustainable and scalable solution to support the growing demand for high-capacity transport corridors in Indonesia.

“Engineered For Excellence”

- ESG Driven Future : Charging Facilities and Battery Swapping Station
- Fleet Type : 2 x 70 tonnes trucks and EV hauling trucks
- Distance : 92km
- Average Speed : 40km/h
- Lane : 2 lanes
- Lane Width : 14.5m
- Tolerance : All Weather

02

Highlights

Captive Market

- Captive market with guaranteed demand from TRA and strong interest from other mines to utilise the road for their mineral reserves
- Over 2 billion tonnes of reserves in the neighbouring region which will ensure full utilisation of the infrastructure in the next 40-50 years
- Well-positioned in a resource-rich region, with demand from other natural resources industries such as timber and others

Superior Infrastructure

- State-of-the-art jetty and port facilities enabling seamless transportation
- Developed with international standards in efficiency, durability and safety
- Significant cost savings from the current operations will improve financial performance and sustainability of the surrounding mines

EV Capabilities

- EV hauling trucks and charging stations to reduce emissions powered by solar energy
- Significant reduction in the carbon emissions will position the road to become the green infrastructure with less pollution to the community
- Strong job creation and positive economic impact will improve the living standards of the community

HIGHLIGHTS

Backed by strong shareholders, who have more than 20 years successful track records and strong presence in the region.

63.7% majority shareholder

Geo Energy Resources Limited, listed on the Mainboard of Singapore Stock Exchange, a leading Indonesian coal producer with an established track record in operating coal mines, coal production and selling coal throughout the region for almost 20 years, focused on low-cost production of strategically-located premium coal assets, with low-ash, low-sulphur characteristics.

36.3% minority shareholder

Sinar Baru Group is a business group in Indonesia with over 15 years of experience in the coal industry. The Group's expertise spans across :

- Coal Mining
- Coal Trading
- Mining Contractors
- Shipping

We continually innovate and uphold professionalism to achieve our vision and mission and focused to environmental sustainability.

Groundbreaking ceremony at Jambi

“ Empowered by Strong Shareholders, Driven by Trusted Contractors ”

Collaborating with Industry Leaders

Joint EPC Contractor

Norinco is a leading organisation in China and is a pioneer in the high-quality joint development of the "Belt and Road" initiative and plays a crucial role in implementing China's national "going global" strategy. Norinco has established economic and trade relationships in more than 130 countries, ranking amongst the top large multinational companies in China based on the multinational index.

Joint EPC Contractor

CCCC-FHC is a subsidiary of China Communications Construction Company Limited ("CCCC"), listed on both Hong Kong and Shanghai stock exchanges. CCCC is a global comprehensive service provider of ultra-large infrastructure services. CCCC primarily focuses on the investment, construction and operation of transportation infrastructure, equipment manufacturing, real estate and urban comprehensive development. In 2021, CCCC secured the 61st position on the Fortune Global 500 list.

Project Insurer and Endorser

SINOSURE, China Export & Credit Insurance Corporation is a state-funded and policy-oriented insurance company in China, specialising in export credit insurance. It plays a key role in facilitating Chinese investments and exports by providing insurance coverage for projects that involve Chinese enterprises.

Powering a Sustainable Future: EV Integration with Green Infrastructure

Battery
Swapping
Station

EV Charging
Station

- 60% of hauling trucks will be electric
- Charging stations at mine and jetty areas, with swapping stations in the middle, increases fleet efficiency
- Estimated cost savings of around 40-50% over diesel trucks
- Reduce annual carbon emissions of up to 4,680 tonnes

Invest in the Future. Invest in MBJ.
